Players must report to the site supervisor upon arrival (30 min. before game time) to receive court assignment.

Each match will be a regular-set (first to win 6 games). If the match gets to 5-5, the winner of the next game will win the match 6-5. This is an adjustment which has been made in an effort to conform to facility and time constraints

Players must know enough about tennis to be able to keep their own score. **Games will be played 15-30-40-Game. No ad scoring.** Disputes will be settled with "Rock, Paper, Scissors", or from a designated parent spectator that is keeping track. Regardless of whether players or parents are keeping score (we prefer players), it is common courtesy to regularly call out the score so that all are of one accord. Players will rotate sides of the court as per standard tennis rules (after game 1, 3, 5, etc.).

Game times are approximate. 10-minute default rule: if players are not present 10 minutes after their scheduled game time then they forfeit.

All results should be reported to the tournament director on site immediately after the completion of each match. Players will also confirm their next match time.

Players will be guaranteed at least 2 matches. Winners in each division will receive gold medals, 2nd place will receive silver medal.
